No Smoking Policy

PURPOSE

This policy has been developed to protect all members and visitors from the risks associated with exposure to second-hand smoke and to help us comply with the relevant legislation (Health Act 2006). Exposure to second-hand smoke increases the risk of lung cancer, heart disease and other serious illnesses. Ventilation or separating smokers and non-smokers within the same airspace does not completely stop potentially dangerous exposure.

POLICY

It is the policy of Gosport Falcons Football Club that all our premises are smoke free, and that all members and visitors have a right to a smoke free environment. Consequently, smoking is prohibited in all enclosed and substantially enclosed spaces on our premises. This policy applies to all members and visitors.

IMPLEMENTATION

Overall responsibility for policy implementation, interpretation and review rests with the Club Welfare Officer, however, all members are obliged to adhere to, and support the implementation of the policy. New members will be made aware of the policy upon joining.

Appropriate 'No Smoking' signs will be clearly displayed at the entrances to, and within, the premises under our direct control and in all permanently designated smoke free areas.

NON-COMPLIANCE

Any members found to be in breach of this policy will be dealt with under the Club's Disciplinary Procedure. Those who do not comply with the 'smoke free' legislation may also be liable to a fixed penalty fine and possible criminal prosecution.
